There was a nomenclature error in ROD T21 which was corrected in Errata #1 (attached, see correction #2); the HxF we are talking about is 1,2,3,4,7,8-HxCDF.

Thanks I looked at T21 in the ROD again. There may be a nomenclature issue. The table lists 1, 2, 3, 4, 6, 7, 8 HxCDF but this is a heptachloro compound. So is the change in 2, 3, 4, 6, 7, 8 HxCDF? Maybe you clarified this on the call...

Hi Madi –

Any idea of when the written notification on this will be published?

Subject: quick call?

Hi Philip,

Would you please let me know if you have time for a 5 min call today or early next week?

Thank you,

Madi Novak, Remedial Project Manager
